MEETING-IN-MINIATURE

Thursday April 28 at University of North Carolina at Chapel Hill are the time and place to remember. This year's meeting-in-miniature with fifty papers being presented promises to be a glowing success. The presentations of papers starts at 1:00 pm. An additional highlight will be the plenary lecture at 4:30 pm by Dr. Paul D. Bartlett of Texas Christian University. A social hour will follow at 6:00 pm followed by dinner at 7:00 pm at the Ranch House. As noted in the program reservations need to be made in advance. Detach the enclosed copy of the program and bring it with you Thursday April 28. See you there!

PARKING ARRANGEMENTS FOR THE
MEETING-IN-MINIATURE

Those individuals planning to drive to the meeting-in-miniature need to plan ahead with respect to where they will park their cars. If they desire to park near the Chemistry building they need to get a special parking permit. This can be obtained by making a request in advance to: Mrs. Linda Brezin; Chemistry Department; University of North Carolina at Chapel Hill; Chapel Hill, N.C. 27514. Be sure to include a return address. Alternately, one can park downtown somewhere or at the parking garage at the North Carolina Memorial Hospital. The latter is a five to ten minute walk to the Chemistry Department.

TWO AWARDED SCHOLARSHIPS

The North Carolina Section of the American Chemical Society has awarded its second annual Summer Scholarship Awards to two well deserving graduate students. The recipients are Mr. Rodney Walters a second year graduate student at University of North Carolina, whose advisor is Dr. Richard Buck, and whose research is in Immuno-electrodes; and Mr. Bruce Monzyk a first year graduate student at Duke, whose advisor is Dr. A.L. Crumbliss, and whose research is in Metal Ligand Interactions. Congratulations to the both of you! The awards carry a stipend of \$1000 (tax-free) each.

UNC TO SPONSOR SHORT COURSES

The University of North Carolina at Chapel Hill will again sponsor a short course program this year. The program will take place on Friday April 22 and Saturday April 23. The three topics of this year's program are: "Chemical Applications of Lasers", "Transition Metal Complexes in Catalysis", and "Recombinant DNA and Its Implication for Genetic Engineering" In addition to these timely presentations there will be a social hour at 5:30 and a Banquet at 6:30 at the Carolina Inn. Reservations need to be made for the banquet.

SEE YOU NEXT SEPTEMBER ?

The Meeting-in-Miniature will be the Sections last meeting until next September. HAVE A VERY PLEASANT SUMMER!...
